

BACHELOR OF COMPUTER SCIENCE  
STUDENT

# Sama Osama Abu Al-Khair

## OBJECTIVE

A dedicated Artificial Intelligence major with a deep interest in machine learning, data science, and the future of intelligent systems. I am currently expanding my skills in developing AI-driven solutions while exploring the ethical and practical impacts of AI technology. I am eager to apply my growing expertise in real-world projects and contribute to advancements in intelligent systems.

## EXPERIENCE

### competitor

#### Hackathon invitation

2/2/2023 - Jeddah University

Presented an idea for a temperature-controlled home that can adapt to cold

### Participant

#### General AI Essential Course Workshop

September 25, 26, 27/2023 - Dar AL-Hekma University

Learned an intro to artificial intelligence, algorithms and applications in using AI

### Attended

#### Generative Artificial Intelligence Event

12 February 2024 - Dar AL-Hekma University

Learned applications using generative AI

### Attended

#### CCTS2024: Conference on Creativity, Technology and Sustainability

16 May 2024 - Dar AL-Hekma University
